

Dear esteemed BSG Committee,

I am writing to express my interest in the position of Research Secretary (SecR) within the BSG. I currently serve as a lecturer at the Faculty of Geography and Environmental Sciences, University of Khartoum, where I have built a strong background in supervising students and guiding research projects. This role has strengthened my skills in academic coordination, mentoring, and fostering excellence in research, all of which align closely with the responsibilities of the Research Sub-committee.

In addition to my academic career, I bring extensive professional experience from my long tenure with UNICEF, where I held multiple coordination roles. These positions required me to manage complex projects, facilitate collaboration across diverse teams, and ensure accountability and transparency in program delivery. My ability to organize, document, and communicate effectively was central to achieving UNICEF's objectives, and I believe these skills will be invaluable in arranging and recording the Research Sub-committee meetings and supporting the Vice Chair of Research in promoting the Society's grants and awards.

I am particularly motivated by the opportunity to serve as a trustee and contribute to the governance and strategic direction of the society. I understand the importance of balancing administrative precision with proactive engagement in advancing research initiatives, and I am committed to upholding the values and responsibilities entrusted to this role.

Thank you for considering my application. I would welcome the opportunity to discuss how my academic and professional background can contribute to the success of the research committee and the wider society.

Sincerely,

Regards,

Anwar- Elsadat Eltayeb Elmahal

Geoscientist Lecturer and Specialist
